

The Bayer

Winter Wheat Crop Protection Portfolio

Our portfolio of innovative solutions can help you maximize yield and performance potential from start to finish.

	Product	Group(s)	Use Rate
Seed Treatments	EverGol[®] Energy Highly effective against seed and soilborne diseases, such as stand-damaging Rhizoctonia root rot and profit-robbing smut	-	1 fl oz/100 lb of seed
	Gaucha 600 Insecticide that provides early-season protection from pests including aphids, Hessian flies, wireworms and grasshoppers—with a convenient low use rate	-	0.8 to 2.4 fl oz/100 lb of seed
	Raxil[®] PRO MD Ready-to-use, broad-spectrum disease control and three modes of action against scab, smut, bunt and other diseases that threaten cereal seeds and seedlings	-	5 to 7.5 fl oz/100 lb of seed
	Raxil[®] PRO SHIELD Ready-to-use fungicide and insecticide formulation with early season seedling injury protection against a broad spectrum of diseases and insects including wireworms, aphids (Bird cherry-oat, English grain, Greenbug and Russian wheat aphid) and Hessian fly	-	5 fl oz/100 lb of seed
Fungicides	ABSOLUTE[®] MAXX Offers effective dual modes of action for control of rusts and other leaf diseases when applied at flag leaf	3 11	5 fl oz/A
	DELARO Broader spectrum of disease control and best-in-class, dual mode of action residual	3 11	8 fl oz/A*
	PROSARO Helps improve grain quality and yield potential through its broad-spectrum of disease control	3	6.5 to 8.2 fl oz/A
	PROSARO[®] PRO Protect yield potential and grain quality with 3 active ingredients that guard against foliar and head diseases, including ergot suppression. Promotes crop greening and plant health without impacting harvest	3 7	10.3 to 13.6 oz/A

	Product	Group(s)	Use Rate
Herbicides	AXIOM[®] Powered by two sites of action for a dual approach to controlling grass and broadleaf weeds	5 15	4 to 10 oz/A
	Huskie[®] Effectively controls a wide spectrum of broadleaf weeds, including marestail, kochia and Russian thistle	6 27	11 to 15 fl oz/A
	Huskie[®] FX Combines three modes of action for enhanced performance against kochia and other broadleaf weeds with built-in resistance management	4 6 27	15 to 19 fl oz/A
	Olympus[®] Cost-efficient, effective grass control with tankmix flexibility	2	0.6 to 0.9 fl oz/A
	SPREY[®] Provides control of tough grasses, while allowing for flexible rotational crop choices	2	4.75 fl oz/A
	SPREY[®] XTRA Dependable, effective control of grass weeds, including Italian ryegrass, wild oats and strong suppression of rattail fescue	2	4.75 fl oz/A
Insecticide	Roundup[®] PowerMAX[®] 3¹ Contains a unique surfactant blend with a higher concentration of glyphosate per gallon	9	32 fl oz/A
	RT3[®] Part of the Roundup Portfolio of products, RT3 [®] herbicide is approved for pre-planting and fall burndown applications	9	32 fl oz/A
	BAYTHROID[®] XL The complete pyrethroid for fast, effective control of labeled primary and secondary pests	3A	1 to 2.4 fl oz/A

¹For Roundup PowerMAX[®] 3 herbicide and RT3[®] herbicide applications for wheat, apply after the hard-dough stage when grain moisture is 30 percent or less. Restrictions: Do not apply more than 22 fl oz of any of these products per acre for preharvest application. Allow a minimum of 7 days between application and harvest or grazing.

Not all products are registered in all states and may be subject to use restrictions. Please check with local state regulatory agency for registration status.

*For control of early season powdery mildew, Septoria, Stagonospora, tan spot, and and suppression of rusts: Apply 4.0 - 6.0 fl oz/acre of Delaro[®] 325 SC Fungicide

For more information on herbicide group numbers and site-of-action options, visit IWillTakeAction.com

¹For Roundup PowerMAX[®] 3 herbicide and RT3[®] herbicide applications for wheat, apply after the hard-dough stage when grain moisture is 30 percent or less. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Technology[®] includes glyphosate-based herbicide technologies.

Baythroid[®] XL is a restricted use pesticide. Not all products are registered for use in all states and may be subject to use restrictions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your local dealer or representative for the product registration status in your state. Tank mixtures: The applicable labeling for each product must be in the possession of the user at the time of application. Follow applicable use instructions, including application rates, precautions and restrictions of each product used in the tank mixture. Not all tank mix product formulations have been tested for compatibility or performance other than specifically listed by brand name. Always predetermine the compatibility of tank mixtures by mixing small proportional quantities in advance.
